WE ARE PLEDGED TO THE LETTER AND SPIRIT OF THE U.S. POLICY FOR ACHIEVEMENT OF EQUAL HOUSING OPPORTUNITY THROUGHOUT THE NATION. WE ENCOURAGE AND SUPPORT AN AFFIRMATIVE ADVERTISING AND MARKETING PROGRAM IN WHICH THERE ARE NO BARRIERS TO OBTAINING HOUSING BECAUSE OF RACE, COLOR, RELIGION, SEX, HANDICAP, FAMILIAL STATUS OR NATIONAL ORIGIN. Please note that the Developer at 1428 Brickell, LLC, is not intended to be an offer to sell or solicitation to buy, or advertisement for, any particular unit in this development. The sketches, renderings, graphic materials, plans, specifications, terms, conditions and statements contained in this brochure are proposed only, and the Developer reserves the right to modify, revise or withdraw any or all of same in its sole discretion and without prior notice. All improvements, designs and construction are subject to first obtaining the appropriate federal, state and local permits and approvals for same. These drawings and depictions are conceptual only and are for the convenience of reference and including artist renderings. They should not be relied upon as representations, express or implied, of the final detail of the residences or the Condominium. The developer reserves the right to make modifications, revisions, and changes it deems desirable in its sole and absolute discretion. All depictions of appliances, counters, sinks, floor coverings and other matters of detail, including, without limitation, items of finish and decoration, are conceptual only and are not necessarily included in each Unit. The photographs contained in this brochure may be stock photographs or have been taken off site and are used to depict the spirit of the features to be provided rather than items that may be proposed and are merely intended as illustrations of the activities and concepts described therein. Views vary from each unit and there is no assurance of the views from any particular unit. Ceiling heights are measured from top of floor slab to underside of ceiling slab. Additionally, ceiling height measurements exclude those areas where any shafts, including, drop and/or suspended ceiling and/or light fixtures may be installed. As such, the referenced ceiling height may not represent actual ceiling clearance. Many services provided will be offered on an a la carte basis, with charges for use required. Consult your agent and the Prospectus for the items included with the Unit. Dimensions and square footage are approximate and may vary with actual construction. The project graphics, renderings and text provided herein are copyrighted works owned by the developer. All rights reserved. Unauthorized reproduction, display or other dissemination of such materials is strictly prohibited and constitutes copyright infringement. No real estate broker is authorized to make any representations or other statements regarding the project, and no agreements with, deposits paid to or other arrangements made with any real estate broker are or shall be binding on the developer. All prices are subject to change at any time and without notice, and do not include optional features or premiums for upgrades. From time to time, price changes may have occurred that are not yet reflected on this brochure. Please check with the sales center for the most current pricing. Stated dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls and in fact vary from the dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior air space between the perimeter walls and includes interior structural components). For your reference, the area of the Unit, determined in accordance with those defined unit boundaries, is set forth on Exhibit 3 of the Declaration. Note that measurements of rooms set forth on this floor plan are generally taken at the greatest points of each given room's footprint. The room walls are perfect rectangles, without regard for any cutouts. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length times width. All dimensions are approximate and may vary with actual construction, and all floor plans and development plans are subject to change.

Please note that the Developer is Yach 1428 Brickell, LLC. This is not intended to be an offer to sell, or solicitation to buy, condominium units to residents of any jurisdiction where prohibited by law, and your eligibility for purchase will depend upon your state of residency. This offering is made only by the prospectus for the condominium and no statement should be relied upon if not made in the prospectus. The sketches, renderings, graphic materials, plans, specifications, terms, conditions and statements contained in this brochure are proposed only, and the Developer reserves the right to modify, revise or withdraw any or all of same in its sole discretion and without prior notice. All improvements, designs and construction are subject to first obtaining the appropriate federal, state and local permits and approvals for same. These drawings and depictions are conceptual only and are for the convenience of reference and including artists renderings. They should not be relied upon as representations, express or implied, of the final detail of the residences or the Condominium. The Developer expressly reserves the right to make modifications, revisions, and changes in design desirable in its sole and absolute discretion. All depictions of appliances, fixtures, floor coverings and other matters of detail, including, without limitation, items of finish and decoration, are conceptual only and are not necessarily included in each unit. The photographs contained in this brochure have been taken off-site and are used to depict the spirit of the lifestyle to be achieved rather than any that may exist or that may be proposed and are merely intended as illustrations of the activities and concepts depicted therein. Views vary from each unit and there is no assurance of the views from any particular unit. Ceiling heights are measured from top of floor slab to underside of ceiling slab. Additionally, ceiling height measurements exclude those areas where any soffits, moldings, drop and/or suspended ceilings and/or light fixtures may be installed. As such, the referenced ceiling height may not represent actual ceiling clearance. Many services provided will be offered on an à la carte basis, with charges for use required. Consult your Agreement and the Prospectus for the items included with the Unit. Dimensions and square footages are approximate and may vary with actual construction. The project graphics, renderings and text provided herein are copyrighted works owned by the developer. All rights reserved. Unauthorised reproduction, display or other dissemination of such materials is strictly prohibited and constitutes copyright infringement. No real estate broker is authorized to make any representations or other statements regarding the project, and no agreements with, deposits paid to or other arrangements made with any real estate broker are to be binding on the developer. All prices are subject to change at any time and without notice, and do not include optional features or premiums for upgraded units. From time to time, price changes may have occurred that are not reflected on this brochure. Please check with the sales center for the most current pricing. Stated dimensions are measured to the exterior walls and the centerline of interior demising walls and in fact vary from the dimensions that would be determined by using the description and depiction of the "Unit" set forth in the Declaration (which generally only includes the interior space between the perimeter walls and excludes interior structural components). For your reference, the area of the Unit, determined in accordance with those defined unit boundaries, is set forth on Exhibit 3 of the Declaration. Note that measurements of rooms set forth on this floor plan are generally taken at the greatest points of each given room if the room were a perfect rectangle, without regard for any cutouts. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length times width. All dimensions are approximate and may vary with actual construction, and all floor plans and development plans are subject to change.

WE ARE PLEDGED TO THE LETTER AND SPIRIT OF THE U.S. POLICY FOR ACHIEVEMENT OF EQUAL HOUSING OPPORTUNITY THROUGHOUT THE NATION. Please note that the Developer is Yach 1428 Brickell, LLC. This is not intended to be an offer to sell, or solicitation to buy, condominium units to residents of any jurisdiction where prohibited by law, and your eligibility for purchase will depend upon your state of residency. This offering is made only by the prospectus for the condominium and no statement should be relied upon if not made in the prospectus. The sketches, renderings, graphic materials, plans, specifications, terms, conditions and statements contained in this brochure are proposed only, and the Developer reserves the right to modify, revise or withdraw any or all of same in its sole discretion and without prior notice. All improvements, designs and construction are subject to first obtaining the appropriate federal, state and local permits and approvals for same. These drawings and depictions are conceptual only and are for the convenience of reference and including artists renderings. They should not be relied upon as representations, express or implied, of the final detail of the residences or the Condominium. The Developer expressly reserves the right to make modifications, revisions, and changes it deems desirable in its sole and absolute discretion. All depictions of appliances, fixtures, floor coverings and other matters of detail, including, without limitation, items of finish and decoration, are conceptual only and are not necessarily included in each Unit. The photographs contained in this brochure may be stock photography or have been taken off-site and are used to depict the spirit of the finishes to be achieved rather than any that may exist or that may be proposed and are merely intended as illustrations of the activities and concepts depicted therein. Views vary from each unit and there is no assurance of the views from any particular unit. Ceiling heights are measured from top of floor slab to underside of ceiling slab. Additionally, ceiling height measurements exclude those areas where any soffits, moldings, drop and/or suspended ceilings and/or light fixtures may be installed. As such, the referenced ceiling height may not represent actual ceiling clearance. Many services provided will be offered on an à la carte basis, with charges for use required. Consult your Agreement and the Prospectus for the items included with the Unit. Dimensions and square footage are approximate and may vary with actual construction. The project graphics, renderings and text provided herein are copyrighted works owned by the developer. All rights reserved. Unauthorized reproduction, display or other dissemination of such materials is strictly prohibited and constitutes copyright infringement. No real estate broker is authorized to make any representations or other statements regarding the project, and no agreements with, deposits paid to or other arrangements made with any real estate broker are or shall be binding on the developer. All prices are subject to change at any time and without notice, and do not include optional features or premiums for upgraded units. From time to time, price changes may have occurred that are not reflected on this brochure. Please check with the sales center for the most current pricing. Stated dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls and in fact vary from the dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior air space between the perimeter walls and excludes interior structural components). For your reference, the area of the Unit, determined in accordance with those defined unit boundaries, is set forth on Exhibit 3 of the Declaration. Note that measurements of rooms set forth on this floor plan are generally taken at the greatest points of each given room(s) of the room were a perfect rectangle, without regard for any cutouts. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length times width. All dimensions are approximate and may vary with actual construction, and all floor plans and developer plans are subject to change.

They should not be relied upon as representations, express or implied, of the final detail of the residences or the Condominium. The Developer reserves the right to make modifications, revisions, and changes in design, materials, finishes, fixtures, elevations, colors, and other matters of detail, including, without limitation, items of finish and decoration, are conceptual only and are not necessarily included in each Unit. The photographs contained in this brochure may be stock photographs or have been taken off-site and are used to depict the spirit of the residences to be constructed rather than any that may be proposed and are merely intended as illustrations of the activities and concepts described therein. Views vary from each unit and there is no assurance of the views from any particular unit. Ceiling heights are measured from top of floor slab to underside of ceiling slab. Additionally, ceiling height measurements exclude those areas where any soffits, moldings, drop and/or suspended ceiling and/or light fixtures may be installed. As such, the reference ceiling height may not represent actual ceiling clearance. Many services provided will be offered on an à la carte basis, with charges for use required. Consult your Agent and the Prospectus for the items included with the Unit. Dimensions and square footage are approximate and may vary with actual construction. Unauthorized reproduction, display, or other dissemination of such materials is strictly prohibited and constitutes copyright infringement. No real estate broker is authorized to make any representations or other statements regarding the projects, and no agreements with, deposits paid to or other arrangements made with any real estate broker are or shall be binding on the developer. All prices are subject to change at any time and without notice, and do not include optional features or premiums for upgraded units. From time to time, price changes may have occurred that are not reflected on this brochure. Please check with the sales center for the most current pricing. Stated dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior dividing walls and in fact vary from the dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only include the interior air space between the perimeter walls and includes interior structural components). For your reference, the area of the Unit, determined in accordance with those defined unit boundaries, is set forth on Exhibit B of the Declaration. Note that measurements of rooms set forth on this floor plan are generally taken at the greatest points of each given room as if the room were a perfect rectangle, without regard for any cutouts. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length times width. All dimensions are approximate and may vary with actual construction, and all floor plans and development plans are subject to change.

Stated dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls and in fact vary from the dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior air space between the perimeter walls and excludes interior structural components). For your reference, the area of the Unit, determined in accordance with those defined unit boundaries, is set forth on Exhibit 3 of the Declaration. Note that measurements of rooms set forth on this floor plan are generally taken at the greatest points of each given room's area and in fact vary from the dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior air space between the perimeter walls and excludes interior structural components). For your reference, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length times width. All dimensions are approximate and may vary with actual construction, and all floor plans and development plans are subject to change.
